TERM PROJECT: 02

The following covers the formatting requirements for both the models and the text in the exhibit. It also includes a final list of the projects included organized chronologically. Research guidelines and requirements for the first outline of the text will be issued separately.

Model Format Requirements

NOTE:

The following list of requirements is for materials only. You will discuss the specifics of scale and selection of detail or building part with your section instructors.

1. All model bases will have a base with the following minimum dimensions:

Base A before you
add layers for site section if needed.
Base A: c- d minimum 2"

Base material to be appropriate to your model. NO PAPER. Suggested base material: Wood, Acrylic

2. Model materials ALLOWED:
 - a. Wood: Bass, Birch, etc.
 - b. Acrylic/Plastic
 - c. Metal/Metal Tape
 - d. Styrene (as appropriate: must discuss with TA)
 - e. Chip Board (select parts and only after approval by instructor)

Model materials to be EXCLUDED:

No foam, foam core, paper, museum board, plaster, clay.

3. Model scale to be determined by teams with their instructors. All models to be carefully crafted with attention to construction methods, materials and finish. They will be evaluated with these criteria in mind.

Text Format Requirements

Format for the paper will be given as a Word Doc Template created for the class and available on Telesis. We will notify you when it is available. Please use the template including text styles as indicated. The team member responsible for final formatting should review template and directions with your section instructor.

Final printing to be on Epson Matte Paper Heavyweight, 8.5x11.

Available: http://www.jr.com/epson/pe/EPS_S041257/

It is recommended that the class purchase a ream of paper to be submitted on the due date for the term project. We will review papers before making the final prints for the exhibit. You will submit both a digital copy and a printed copy on regular paper for grading. We will give you specific instructions as the due date approaches.

Part of the assignment includes the care you take to follow the format for the exhibit, the use of images in relation to text, and graphic finesse. The final product must have both strong content and exhibit quality graphic presentation.
